

16-Month Online Doctor of Nursing Practice Program

“Sometimes I reflect on who I was before the DNP program. The transformation is truly profound. I have been a student for most of my life, but these past two years have taught me more about myself than a lifetime of schooling ever could. I have the fantastic DNP faculty to thank for this. They nurtured me from the very beginning and patiently waited for me to bloom. I may not remember every textbook and lecture, but I will never forget the way they made me feel about myself. I will carry their faith and encouragement in my heart wherever I go.”

—Jennifer Bowen,
DNP, RN, PMHNP-BC

Innovate, Improve and Transform

At MGH Institute’s innovative Doctor of Nursing Practice (DNP) program, you’ll join a cohort of current and aspiring nurse leaders preparing to shape the future of health care. Learn from faculty who are authorities in areas such as innovation, design and improvement science, leadership, population health, climate change, evidence-based practice, and informatics. You will also receive one-on-one mentoring throughout the program.

During this intensive program designed for working professionals, you will:

- Engage in one, fully integrated 9-credit course per semester
- Immerse yourself in an innovative, cohort-structured curriculum that includes:
 - ~ Weekend immersion experiences twice a semester on our Boston campus
 - ~ 10 live, online classes and seminars each semester
 - ~ Flexible, independent online learning modules
- Complete a DNP project that you develop throughout the program

34 CREDITS

Encompassing an integrated, case-driven approach

4 SEMESTERS/16 MONTHS

Complete online courses with brief, on-site immersive learning experiences

FACULTY EXPERTS IN THE FIELD

Will mentor and coach you throughout your course of study

16-Month Online Doctor of Nursing Practice Program

IHP Advantage

CASE STUDY MODEL

Learn through real-life cases from world-class health care organizations.

ACCESS TO EXPERTISE

Interact with world-renowned clinicians and nurse leaders at some of the nation's leading hospitals and health centers, including Massachusetts General Hospital and Brigham and Women's Hospital, enhancing your leadership capacity.

FACULTY SUPPORT

Collaborate and learn with a dynamic and engaging faculty team, all leaders and clinicians involved in their own clinical practice and scholarship.

INDIVIDUAL MENTORING

Receive one-on-one individual mentoring from a dedicated advisor helping you to develop and refine your clinical practice problem that will be the focus of your DNP project.

INNOVATIVE PROGRAM DESIGN

- During semesters 1 and 2, clinical and executive track students learn together; during semester 3 there are track-specific assignments and activities in class and during on-site immersion weekends.
- Each semester is carefully structured with: 10 live, online classes and seminars; flexible independent learning modules; and two separate weekend immersion experiences at our Boston campus.
- Innovation and design science, transformational learning, leadership, informatics, and culture of health for systems and populations are woven into each semester.

Integrated Curriculum

In our innovative curriculum, you will immerse yourself in one comprehensive, integrated semester-long course each term. As you progress, each semester builds upon the previous one:
